

INVENTORY

MHD-ROCKLAND holds one of the largest privately-owned C-130 and P-3 inventories in the world. In addition to sourcing new components for resale, we own five P-3C Orions, four L-188 Electras and hold over 325,000 parts, including high demand airframe, hydraulic, engine and electro-mechanical spares. We also design and prepare customized repair kits for our clients based on individual and shared forecasting results. Having the right parts available immediately is essential to conducting the maintenance and inspection activities necessary to keep aircraft operational.
